

CRN Conference 2022

Rules for Abstract Submissions and Presentations

Abstract submission

- The abstract must include some aspect of Tatton Brown Rahman Syndrome (TBRS), DNMT3a, or related topics, such as overgrowth.
 - TBRS Community will accept abstracts from industry that contain TBRS/DNMT3a research, data, and results, provided that abstracts do not contain commercial content or advertisements.
- Please submit a brief description of the study, including the subject/system/model studied, methods, results, and conclusions.
 - Do not include figures, tables, or graphs.
 - Note the study's relevance to TBRS.
 - Please submit all text in English.
